

ENESKAsonic Ultrasonic Polisher

High Efficiency, Leading Edge Ultrasonic Polisher

The ENESKAsonic is used for polishing and lapping in the frequency range of 20 and 30 kHz. The Auto Tune function determines the optimum frequency and the adjustable power control is suitable for fine, delicate work on narrow ribs and edges. Use the Boost Mode feature for power-intensive, extra abrasive work with sintered diamond files. The LED-assisted display shows the widest range of operating parameters and settings. The 140g lightweight handpiece with an M6 fine thread is comfortable to hold and enables fatigue-free work.

- Intuitive touch operation combined with a rotary controller on high-quality glass
- Modern LED-assisted multifunctional display
- Boost function for applications requiring greater power
- Idle timer detects unused handpieces and protects against wear
- USB charging connection enables optional workplace light without another power source
- Compatible with NSK SHEENUS neo handpiece when used with NSK Handpiece Connect Cable

ENESKAsonic Ultrasonic Polisher Set • Item # 0012000-US1 - LIST Price - \$4,250

- (1) Control Unit
- (1) Ultrasonic Handpiece
- (1) Handpiece Support Stand
- (1) Screen Protector made of tempered glass
- (1) Power Cord
- (2) 4 A Fuse for 110V use
- (1) Allen Key
- (2) Chuck Key
- (1) 3mm round tool holder
- (1) 1mm flat tool holder
