

HTSG-3S High Torque Air Grinder

Most powerful high torque grinder in the air micro grinder series.

Rotational speed is limited to 24,000 RPM providing a stable torque with constant grinding performance under load, making it ideal for mounted abrasives with low maximum RPM speed requirements. Designed to be highly effective in deburring and die polishing.

HTSG-3S High Torque Air Grinder

Item # - HTSG-3S - 3mm Collet

Item # - HTSG-32S - 1/8" Collet

Collets are not interchangeable

Product Features	Tool Specification	
<ul style="list-style-type: none"> • Double the torque of existing models providing powerful grinding operations at a constant rotation speed under load. 	Speed	24,000 RPM
	Air Pressure	0.4 MPa / 58 PSI
<ul style="list-style-type: none"> • Uses 40% less air than the existing models, reducing plant air consumption. 	Air Consumption	75 NL/min
	Collet	3mm or 1/8"
<ul style="list-style-type: none"> • Lightweight with an ergonomic body. 	Length	160.8mm
<ul style="list-style-type: none"> • Great performance with carbide burs, rubberized abrasives and mounted felts. 	Diameter	16.7mm
	Weight	135 grams
