“NF” Aluminum Polishing Stone

Exceptional performance while polishing aluminum & other soft metals.

The “NF” non-ferrous stone is a specially treated aluminum oxide stone of medium hardness that can be used by hand or in reciprocating profilers. Available in 150-1200 grits, the NF cuts fast and breaks down quickly while leaving an excellent finish. Made in the USA 

- Specifically engineered for polishing aluminum and soft metals
- Available in a variety of grits and sizes
- For use by hand or in reciprocating profilers
- Specially treated aluminum oxide formulation
- Cuts fast and breaks down quickly
- Leaves an excellent finish
- Use with a lubricant to prevent stone from loading up
